Re: Notification to School Staff of the Physical Fitness Facility Medical Emergency Response Instructions and AED Availability

We would like to notify you about our plan for responding to medical emergencies that might occur in our gymnasium or other indoor physical fitness facility. This plan includes access to an Automatic External Defibrillator (AED) in the following locations in these buildings:

Building	Location
Eastland Elementary	(1) on wall west of office, by custodial closet
Eastland Middle School	(2) on wall right of the stage; on wall west (across from) office
Eastland High School	(1) on wall in vestibule north of gym

The AEDs are strategically placed and readily accessible to predetermined AED users to maximize rapid use. The AED is available during school hours and after school during on-site school activities. The predetermined AED users are school nurses and any other person who has received AED training (American Heart Association, American Red Cross, or equivalent training) and has a completion card on file with the Superintendent.

The following information is posted with each AED:

1. Instructions to immediately call 9-1-1 and instructions for emergency care.
2. A statement that the AED is to be used only by trained users.
3. Instructions for using an AED.

Please contact me if you would like information on becoming a trained AED user. We appreciate your support.

Sincerely,

Superintendent
